

# Specialty Medications Drug List

Starting January 1, 2027

Specialty medications treat rare and complex medical conditions. They're often given as an injection or through an IV, and some may need to be kept cold.

## What to know about this drug list.

- It shows the specialty medications<sup>1</sup> most often prescribed.
- Medications are listed in alphabetical (A–Z) order.
- Generics are in lowercase letters. Brands are in ALL CAPITAL letters.
- Medications that may need to be filled through Accredo<sup>®</sup> Specialty Pharmacy<sup>2</sup> are marked with an asterisk (\*).
- **This drug list is regularly updated**, so this document may not include all of the specialty medications your plan covers.
- **Your plan may not cover all of the medications listed here.** Log in to the myCigna<sup>®</sup> app<sup>3</sup> or **myCigna.com<sup>®</sup>**, or check your plan details, to see what your plan covers.

## How specialty medications are covered.

Some plans have extra coverage requirements for specialty medications. For example, your plan may:

- Place them on a specialty tier, with the highest copay or coinsurance.
- Only cover up to a 30-day supply at one time.
- Require you to use a certain pharmacy, like Accredo, to be covered.

To learn more, log in to the myCigna app or **myCigna.com**, or check your plan details.

\* You may have to fill this medication through Accredo for coverage. Log in to the myCigna app or myCigna.com to check.

1. What's considered a specialty medication can vary by state. For example, **Delaware and Illinois** may not consider every medication in this list to be a specialty medication.
2. Not all plans offer Accredo Specialty Pharmacy as a covered pharmacy option. Log in to the myCigna app or myCigna.com, or check your plan details, to learn more about the pharmacies in your plan's network. Cigna Healthcare, Evernorth Health Services, and Accredo are all part of The Cigna Group. This means we have an ownership interest in Accredo's specialty pharmacy services — but you have the right to fill prescriptions at any pharmacy in your network (as your plan allows). Log in to the myCigna app or myCigna.com to see all of your in-network options.
3. App/online store terms and mobile phone carrier/data charges apply.
4. Your plan pays the cost for standard shipping.

**Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.**

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
